

Ilona Brodi

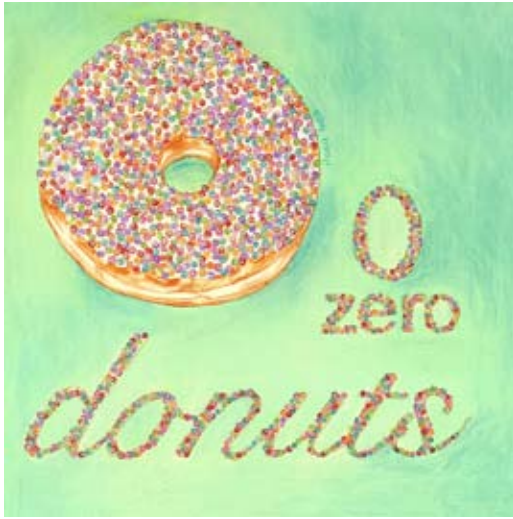

Ilona Brodi

I have always had a love and passion for creating illustrations pertaining to children. After completing a 4 year program in Illustration from OCAD University in 2003 I was at a loss. Illustrating for children was my main objective I just hadn't quite figured out how I was going to apply it. It wasn't till I became pregnant with my first, Phoenix that I had this overwhelming desire to create artwork for the nursery. One thing led to another and here I am 4+ years later selling high end original reproduction prints. I am inspired every day by my 2 boys and am living my dreams of being a mother and a mom entrepreneur.

I have taken part in many vendor shows and have donated several prints (eg. Sick Kids Hospital and Day Care Centres in the Beaches). I like to stay well versed in the community and embrace a multitude of opportunities. I have had a exceptional year with the press by being featured in a number of news papers, magazines and on-line blogs. To name a few: Calgary Herald, M Magazine, KidsLA Magazine, Empowering mommy and the list continues. As well I have appeared on TV, CP24 for a segment on ECO-Friendly entrepreneurs in the greater Toronto area. (There is a full list on my website). All my original illustrations stem from a quirky idea or inspired event. I use a mixed media of acrylic paint washes and pencil crayon on illustration board. I layer my mediums till I achieve my desired effect. I then hand adorn with glitter, my finishing touch.
